

NEW

SIGNLAB

for
**Mimaki™
Edition**

**Maximize
the investment you have
made in your Mimaki™ printer.**

SignLab now comes configured
specifically to work seamlessly with
the Mimaki RasterLink™ software!

Incredibly easy production tools!

✓ **Supersize Image:** Unmatched tool for scaling up low resolution images for wide format prints.

✓ **"Vectorization Wizard"** The easiest way to create vector artwork. Our wizard walks you right through it. Also uses SuperSize image to turn internet graphics into smooth, crisp vectors in minutes!

✓ **Contour Cut:** Designed for Print and Cut solutions, no complex setup for cutting or setting of cut paths. Try this in desk top publishing software packages.

✓ **Variable Data Support:** Automated data replacement within multiples of the same design. Also supports serialization if required. A huge time saver!

✓ **Automatic PDF colour management** for sending out proofs. Customers see the colors you see!

✓ **File > Print to RasterLink™:** Seamless interface between SignLab and RasterLink™

✓ **Fluid Mask™ (optional add on):** Incredibly simple masking tool that easily removes backgrounds or unwanted parts of an image.

The benefits to you----

✓ Accomplish more in less time.

✓ Specific sign printing, print and cut production tools right at your finger tips, all in one package.

✓ No need to learn awkward production workflows in your desktop publishing program, SignLab facilitates your production.

NEW

Maximize the investment you have made in your Mimaki™ printer.

A true wide format print, print and cut design and production software.

Design features specific to digital printing that give your signs the “wow” factor!

- ✓ Over 75 special effects plug-ins for both vector and bitmap images

- ✓ Complete, professional text composition layout tools including 1100+ fonts

- ✓ Amazing photographic image filters

- ✓ Instant Replay, automatically apply intricately created special effects onto new objects/designs

The benefits to you----

- ✓ Do all of your bitmap or vector design work all in one package.
- ✓ No need to learn all kinds of software products.
- ✓ Add value and charge more for your designs because they rule the competition.
- ✓ Design and build your entire project in SignLab. Send directly to RasterLink™. No exporting then importing required.
