

SIGNLAB for VersaWorks™ Edition

Maximize the investment you have made in your Roland™ printer.

SignLab now comes configured specifically to work seamlessly with your VersaWorks™ software!

Incredibly easy production tools!

- ✓ Super Size Image: Unmatched tool for scaling up low resolution images for wide format prints.
- ✓ Best vectorization on the market. Super Size Image also enables you to take graphics directly off the Internet and turn them into crisp vectors literally in minutes.

- ✓ NEW! Improved contour cut interface that enables the application of contour cut lines with enhanced speed and accuracy on images regardless of their complexity.

- ✓ Automatic on-screen color management setting for working with VersaWorks™.

- ✓ NEW! Unique metallic support that enhances photographic images and creates stunning visual effects that is simply not available in other software packages. It also extends the achievable color gamut. Leverage the maximum benefits associated with the new and exciting ink development by Roland™.

- ✓ Automatic PDF color management for sending out proofs. Customers see the colors you see!
- ✓ File > Print to VersaWorks™: Print directly to Queue A or B.

- ✓ Fluid Mask™ (Optional add on): Incredibly simple masking tool that easily removes backgrounds or unwanted parts of an image.

The benefits to you----

- ✓ Accomplish more in less time.
- ✓ Specific sign printing, print and cut production tools right at your fingertips, all in one package.
- ✓ No need to learn awkward production workflows in your desktop publishing program, SignLab facilitates your production.

Maximize
the investment you have made in
your Roland™ printer.

A true wide format print, print and cut
design and production software.

**Design features specific to digital printing that give
your signs the “wow” factor!**

- ✓ Over 75 special effects plug-ins for both vector and bitmap images.

- ✓ Complete, professional text composition layout tools including 1100+ fonts.

- ✓ New! Corel, Illustrator and PhotoShop design application plug-ins. Seamless file transfer directly from these software packages directly into SignLab for VersaWorks™.

- ✓ InstantReplay, automatically apply intricately created special effects onto new objects/designs.

The benefits to you----

- ✓ Do all of your bitmap or vector design work all in one package.

- ✓ No need to learn all kinds of software products.

- ✓ Add value and charge more for your designs because they rule the competition.

- ✓ Design and build your entire project in SignLab. Send directly to VersaWorks™. No exporting then importing required.
